The city of San José del Cabo has an authentic Mexican atmosphere that is a charming counterpoint to the non-stop action of sister city Cabo San Lucas. Just 20 miles away from Cabo at the other end of the Tourist Corridor, you'll find a historic town of courtyard restaurants, charming architecture, boutiques, and a beautiful church facing the traditional town square.

It has flourished as a first-class destination with excellent amenities and services like first-class hospitals, restaurants, and luxury hotels thanks to its superb sunny climate and prime location.
